INDIANA UTILITY
REGULATORY COMMISSION

On September 11, 2003, Chandler Natural Gas Corporation ("Petitioner") filed its Petition For Approval Of A Gas Cost Adjustment ("GCA"). The hearing is scheduled for October 22, 2003. After reviewing the petition, the presiding officer now finds that Petitioner should answer the following data requests by October 21, 2003:

On Sch 6 explain why on line 6 a gas rate of \$2.3684 /DTH which is the factor in GCA 63 for the billing months of Nov, Dec 02, and Jan 03 was used instead of a rate of \$3.0627/DTH which is the factor in GCA 64 for the billing months of February through March 03.

Also on Sch 6 explain why on line 7 a gas rate of \$2.33214 /DTH which is the actual incremental cost of gas billed excluding the Utility Receipts Tax factor in GCA 63 for the billing months of Nov, Dec 02, and Jan 03 was used instead of a rate of \$3.015816/DTH which is the factor in GCA 64 for the billing months of February through March 03.

On Sch 6A explain why on line 2 there is a calculation made for the March but not for the month of April.

What does the 2,541 DTH figure represent?

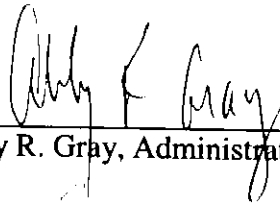

Where do the 2,542 DTH and the \$2.15 figures come from?

On line 3 how are the figures for the months of March and April calculated? It appears that for April the \$5 is multiplied by the line 1 figure for April. Why wasn't this methodology used in March?

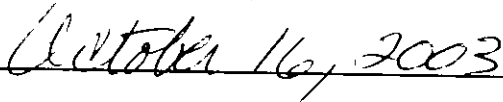

On the residential bill comparison Petitioner did not used the correct GCA factor for GCA 63 calculations. Please explain or correct.

Why is Petitioner deferring the collection of the variance until the next GCA?

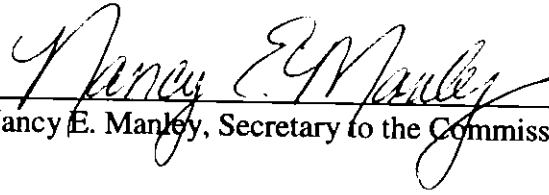

IT IS SO ORDERED.
